

Tag Tutorial

You will need:

- ▶ your stitched design
- ▶ gold coloured card
- ▶ white felt
- ▶ 1 cm wide burgundy ribbon (allow 30 cm per tag)
- ▶ glue
- ▶ novelty hole punch
- ▶ cutting mat, ruler, and craft knife

Step 1 : getting ready.

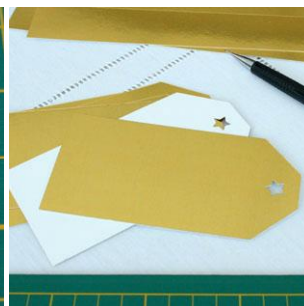

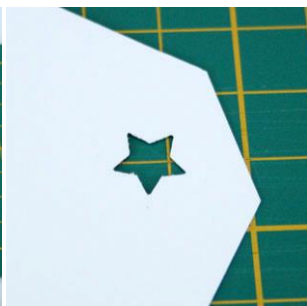

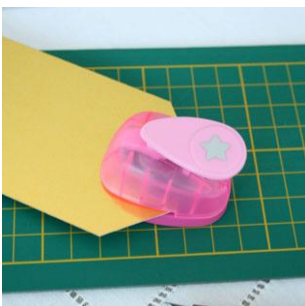

Start with making the tags.

Using your ruler and craft knife, cut as many 12 x 6 cm rectangles in the gold card as you will need.

(it's best to work on the reverse of the card – here, the white side – so that the gold coating doesn't get scratched)

On one side, trim both corners about 2cm from the corner. (you can use the lines of the cutting mat to guide you – there's a line every cm)

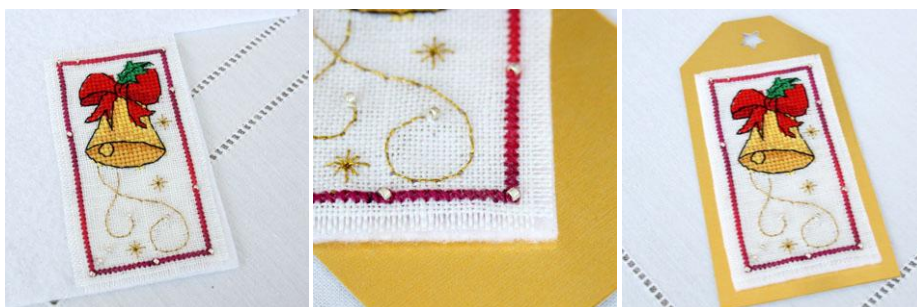

On the side where you've trimmed the corners, use the novelty hole punch to cut a shaped hole in the middle – here, a star.

Step 2 : putting it together.

Now, for the stitched work. Trim the designs, 6 threads away from the stitched border. When you've trimmed all four sides, pull 3 of those 6 threads all around the design to create a frayed border.

Position your stitched design on the white felt, and cut the felt to the same size as the stitched design. Lightly glue the design to the felt, and then the felt to the golden tag.

Step 3 : adding the finishing touches.

Cut 30 cm of burgundy ribbon, and loop it through the star hole.
Your tag is ready.
